NOTES

Erewash Borough Council has a duty to inspect all food business in the Borough to ensure that safe food is being produced. We also need to be sure that anyone coming into the Borough or serving food on an ad-hoc basis is serving safe food.

The information you provide on this form will allow us, before the event itself, to consider if you pose risk from the food you intend to serve. If you are already registered with a local authority as food business we will contact them to find out if there are any problems with your food handling practices. If there are none then we may decide that we don't need to inspect you when you trade at the event.

In the case of a temporary ad-hoc event and/or charity the information will help us to decide if we need to take any action. If you are serving high risk food we may contact you to discuss your proposals. If we have concerns about the safety of the food you are providing we may decide to visit you during the event. It is possible; if we consider that you cannot ensure the food you serve is safe, for us to recommend to the event organisers that you are not allowed to trade.
